1. Company Overview

Vertex Technologies Ltd. is a leading enterprise software and cloud services company headquartered in Bangalore, India. Founded in 2008, the company has grown to over 1,200 employees and serves Fortune 500 clients across 18 countries. The company holds ISO 27001 and SOC 2 Type II certifications and has no history of litigation or regulatory violations.

Recent Business Performance

- Secured a 5-year SaaS contract worth \$12M with a US-based insurance conglomerate in Q3 FY2024.
- Achieved 98.7% client retention rate for FY2024.
- Zero missed debt service payments across all prior credit facilities.

2. Financial Statements (Last 3 Years)

Year	Revenue	EBITDA	Net Profit	Total Debt
2022	\$24,800,000	\$6,200,000	\$3,900,000	\$5,100,000
2023	\$31,400,000	\$8,400,000	\$5,600,000	\$5,800,000

2024	\$39,200,000	\$11,100,000	\$7,800,000	\$6,200,000
------	--------------	--------------	-------------	-------------

Debt Service Coverage Ratio (DSCR) is 2.84 based on FY2024 operating cash flows. Debt-to-EBITDA stands at 0.56x, well below the 3.0x industry threshold. Current ratio is 3.1, indicating exceptional short-term liquidity.

3. Risk Factors

- **Low concentration risk** — No single client exceeds 12% of total revenue.
- **Technology obsolescence risk** — Partially mitigated through continuous R&D; investment (~8% of revenue annually).
- **FX exposure** — 40% of revenue is USD-denominated; hedging program in place via forward contracts.
- **Macro sensitivity** — Enterprise IT spending may soften in a prolonged recession, though SaaS contracts provide recurring revenue cushion.

4. Compliance Notes

Full KYC documentation for Vertex Technologies Ltd. and all beneficial owners has been submitted and verified. No sanctions, PEP flags, or AML watchlist matches were identified. All statutory filings (MCA, GST, Income Tax) are current. The company has a clean credit bureau history with a corporate credit score of 812 (CIBIL).

5. Underwriter's Preliminary Assessment

Based on the above data, Vertex Technologies Ltd. presents as a **prime-quality borrower**. Strong revenue growth trajectory (CAGR ~25.8%), high DSCR, low leverage, and clean compliance record all support a Grade A classification. Recommended disposition: **APPROVE**.
